Is Life
Worth Living?

That depends upon the
Liver. If the Liver is
inactive the whole sys-
tem is out of order—the
breath is bad, digestion
poor, head dull or aching,
energy and hopefulness
gone, the spirit is de-
pressed, a heavy weight
exists after eating with
general despondency and
the blues. The Liver is
the housekeeper of the
health; and a harmless,
simple remedy that acts
like Nature, does not
constipate afterwards or
require constant taking,
does not interfere with
business or pleasure dur-
ing its use, makes Sim-
mons Liver Regulator a
medical perfection.

I have tested its virtues personally, and
know that for Dyspepsia, Biliousness and
Throbbing Headache, it is the best medi-
cine the world ever saw. Have tried forty
other remedies before Simmons Liver
Regulator, and none of them gave more
than temporary relief, but the Regulator
not only relieved but cured.
H. H. JONES, Macon, Ga.

An active but not very robust city
boy was sent by his parents away up
into the north woods a few days ago
for the avowed purpose of building up
his health. He was cautioned by his
father and by the family doctor to keep
warm at night, the avoidance of chills
being especially desirable in his case.
The other day a letter came from the
boy. He told his parents that he was
"feeling well, eating like a horse, and
having a bully time." He also said:
"And I keep as warm as toast nights.
The other night I went to bed with all
my clothes on. I wore two shirts, three
pairs of trousers, two coats, my shoes
and overshoes and a cap."—New York
Times.

Cause of a National Trait.
It is a matter of common observation
that Hibernians as a rule are more than
ordinarily devoted to their families, and
their home life is beautiful in many
ways. As everything has a cause, the
most plausible one in this regard appears
to me to be the severe persecutions to
which that race has been subjected for
centuries, compelling cleanliness and
affording them their greatest happiness
at home. Persistent influences acting
through unnumbered generations would
surely institute a racial peculiarity such
as this.—S. V. Clevenger in Science.

To Keep Flowers Fresh.
Flowers may be kept fresh for a long
time by putting a pinch of soda into the
water in which they are held. They
should not be gathered while the sun is
shining upon them, but early in the
morning or after the sun has been down
for an hour. To revive wilted flowers
plunge the stems to about one-third of
their length into boiling water. This
will drive the sap back into the flowers,
causing them to become fresh. Then
out away the third of the stem which
has been heated and place the flowers in
cold water.—New York World.

Children Cry for Pitcher's Castoria.

A Race of Giants in Old Gaul.
In the year 1890 some human bones of
enormous size, double the ordinary in
fact, were found in the tumulus of Cas-
telan (Lierant), and have since been
carefully examined by Professor Kiener,
who, while admitting that the bones are
those of a very tall race, nevertheless
finds them abnormal in dimensions and
apparently of morbid growth. They un-
doubtedly reopen the question of the
"giants" of antiquity, but do not furnish
sufficient evidence to decide it.—London
Globe.

Canada's Muskmon.
The muskmon season has just closed
in Canada. The Montreal market shows
some of the finest canteloupes raised
anywhere. The wagons of the inhabit-
ants stand about the Nelson monument,
piled high with splendid fruit. The
warm lands along the St. Lawrence
produce them beautifully. They beat
Hockensack.—New York Recorder.

But those who use it, know full well,
How bright and beautiful the spell

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article.

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own brand of Sarsaparilla, he told me their would last longer, that I might take it on ten days' trial, that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dizziness, and so weak that at times I could hardly stand. I looked and had for some time like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it."

KNIGHTS OF HONOR MASQUERADE

The Costume, Many and Grotesque—The Party a Success.

As was anticipated, the masquerade ball given by the Knights of Honor on Thanksgiving night was a success, both socially and financially. Early in the evening both maskers and spectators began to arrive and before the hour set for the grand march arrived the hall was well filled. The costumes were largely of Louis manufacture, but this did not prevent them being hand some, and some of the take-offs were very natural.

WIGGINS HEARD FROM AGAIN.

He asserts that there is great danger of a collision.

In regard to the assertion of Professor Colbert that the earth is liable to collide with the alleged Biela's comet, Professor Wiggins says: "You can judge as to the danger of that when I say that Father Seicho, the celebrated Italian astronomer, a few years ago was looking through his glass at this same comet, when he saw it burst in two, thus becoming two electrical comets."

"These have since gradually receded from each other and are now considered two distinct comets and have periodic times entirely dissimilar."

"There is no danger of their running upon each other and why should they run against the earth? Moreover, some of the asteroids, as for instance, Melpomene and Niasa, are continually crossing and recrossing the path of Mars and never collide with that planet."

"Comets, however, may do us a great deal of damage, for if one should come between us and our moon, as Biela's comet ran among the moons of Jupiter in 1778 its powerful attraction would so contract the earth as to cause the water of our oceans to overflow our continents as no doubt happened at Noah's deluge."

Deserves Attention.

If you have money to invest in Reno real estate, either in large or small amounts, the Reno Real Estate and Investment Company offers most particular inducements to you. By investing in its shares of stock you participate in its investments which are governed by its able and experienced Board of Trustees, consisting of Mr. C. T. Bender, Mr. Sol Levy, Mr. C. C. Powning, Mr. Geo. F. Turrittin, Mr. A. G. Fletcher. The principle object of the company is to purchase and improve centrally located business property in the city of Reno. Everyone is of one mind as to the desirability of such investments.

The company is incorporated with a capital of \$100,000, divided into 20,000 shares of the par value of five dollars each, and from its already large list of share holders there is every reason to believe that it is destined to become one of the most flourishing companies in the State. Of its 20,000 shares there have been 12,000 sold since August 1st.

Its shares are sold upon the monthly installment plan of ten cents per share, installments to range over a period of fifty months. In this way persons of moderate means are enabled to combine and participate in investments that usually only fall to the lot of the fortunate capitalist. Mr. F. M. Lee, the Secretary of the company, will be pleased to furnish any desired information.

Clubbed to Death for Money.

Three weeks ago or thereabout, a Chinaman was found near Humboldt House, at the side of the railroad track with his back broken. He was taken to Winnemucca and the next day died. It was first thought he had fallen from a train, but after his death, a Chinaman, a domestic at Humboldt Hotel "let the cat out of the bag." It appears the fated man let American canyon, where he had been in business, with \$800 in his pocket, intending to walk to the railroad and go into Winnemucca. He was followed by two highlanders in the camp, who when they got him near the railroad, clubbed him across the small of the back, took all but \$15 of the money, and with their knave connivance, placed him alongside the rails, to give to the crime the semblance of an accident on the road by means of the cars. The way-laid Chinaman never spoke after being found, for life was nearly extinct and the criminals with their booty are back in their old haunts—New Era.

Thieves About.

A number of robberies have occurred about Reno recently, the parties doing the stealing covering up their tracks in such a manner as to leave no clue. While Rev. E. C. Van Deventer and wife were away recently on missionary duties in the Southern part of the State their residence on Virginia street was broken into and a considerable number of valuable articles taken. The house of Mrs. Steiner, a block below, was also burglarized of a number of things, presumably by the same parties at the same time.

James Drake, out on the Virginia road, also had a saddle stolen a few nights since.

A Pleasant Party.

The mansion of W. D. Phillips on Second street was the scene of a pleasant little party last evening, the occasion being the 14th birthday of Miss Sadie Phillips. About fifty young people were present and a delightful time was experienced by all the guests.

FOSTER'S WEATHER FORECASTS.

What the Weather Portends for the Next Week

Copyrighted 1892 by W. T. Foster.

St. Joseph, Mo., November 25. My last bulletin gave forecasts for the storm wave to cross the continent from November 28th to December 21, and the next will reach the Pacific Coast about December 21, cross the western mountains by the close of the 31, the great central valleys from 4th to 6th and the eastern States about the 7th.

This will be a severe storm, at its greatest force in the Mississippi valley about the 5th, and will cause heavy snows and rains. Its path will lie well to the north. The cold wave following this storm will be of considerable force and will cause snows on its front. It will cross the western mountains about the 5th, the great central valleys about the 7th and the eastern States about the 9th.

Severe weather in the Mississippi valley is expected from November 20th to December 1st.

Those who desire information as to local weather conditions for the Winter, or for next year's crop, may write me, enclosing a stamp.

People Who Entertain.

Among the clever artists composing Chas. E. Schilling's Minstrels is Geo. H. Edwards, the great Southern comedian. Mr. Edwards is one of the best known minstrel performers on the American stage today. He is of the old school, having appeared in every city of the United States and the principal cities of Europe with leading minstrel organizations. He has a droll style of his own and is without doubt the most original comedian now before the public. His songs and witticisms this season are all fresh and new and his specialties better than ever.

Clivette, the purple and agile little French equilibrist, does one of the most artistic and entertaining acts of jugglery that has ever been presented to the American public. This is his first appearance in America and his specialty, which has taken years of patient practice to accomplish, must be seen to be appreciated.

Sully and Neely America's own knock-about song and dance artists, are doing their original creation of India rubber dooms, an extremely funny act.

Brothers Nicholas, the European marvels, are without exception the most daring and wonderful acrobats that have ever visited this country. Their equals do not exist.

This superb combination appears in the Opera House next Wednesday evening.

Court in Lovelock.

For the first time in the history of Lovelock, says the New Era, court met here yesterday. At 9 a. m. Sheriff Fellows announced that court was in session. The cause of court being held here is the water suit which appears on the calendar as John Harrison et al. vs. W. C. Pitt et al. Two of the attorneys stated they had other cases to attend to between now and the 14th of December, so adjournment was granted in their behalf, the case to be continued here on and after that date.

Official Returns from Nye County.

The official returns of the recent election have just been received from Nye county, which indicate that that is the banner county of the State: Harrison, 14; Cleveland, 7; Weaver, 242; Bidwell, 4; Newlands, 211; Woodburn, 11; Hagerman, 6; Gardner, 1; Belknap, 180; Fish, 186; Lammon, 10; Role, 19; Mack, 182; Kincaid, 24; Douglas, 10. For State Senator, Andrew Maute, 153; for Assemblyman, T. J. Bell, 220.

Too Much Holiday.

Got him off the track and brought on a fresh attack of indigestion and dyspepsia. It was Simmons Liver Regulator that cured this time. It never fails. You want to keep it on hand also for any Billions effect, or for Constipation. It is the emergency remedy, unlike pills in effect. No gripings, and does not debilitate. Try it at once.

Commenting upon the item from the Silver State which has made the rounds of the press, relative to the fact that Chas. J. Kappler, private secretary to Senator Stewart, had made a friend of every newspaper man in the State, the Carson News says: "And also every newspaper woman. It is a genuine pleasure to meet an intelligent, courteous and entertaining a young man as Mr. Kappler."

The Woman's Guild of Trinity Church.

will meet Saturday, November 26th, at two p. m. with Mrs. Colwell.

E. C. BARCOCK, Secretary.
